Airabella Castillo is a Senior Industrial Hygienist, currently acting as a CSHO in OSHA's Consultation and Education program.

Before beginning her career in safety she attended the University of Iowa's College of Engineering, receiving a bachelor's degree in biomedical engineering as well as minors in mathematics and chemistry. After her graduation in spring of 2019 she began her work at IOSHA, taking on educational obligations as well as offering onsite consultation services.

Some specialty fields of service include:

- Industrial Toxicology
- Industrial Ventilation
- Combustible Dust Assessment
- Ergonomic Consultation
